INVENTOR

Open INVENTOR

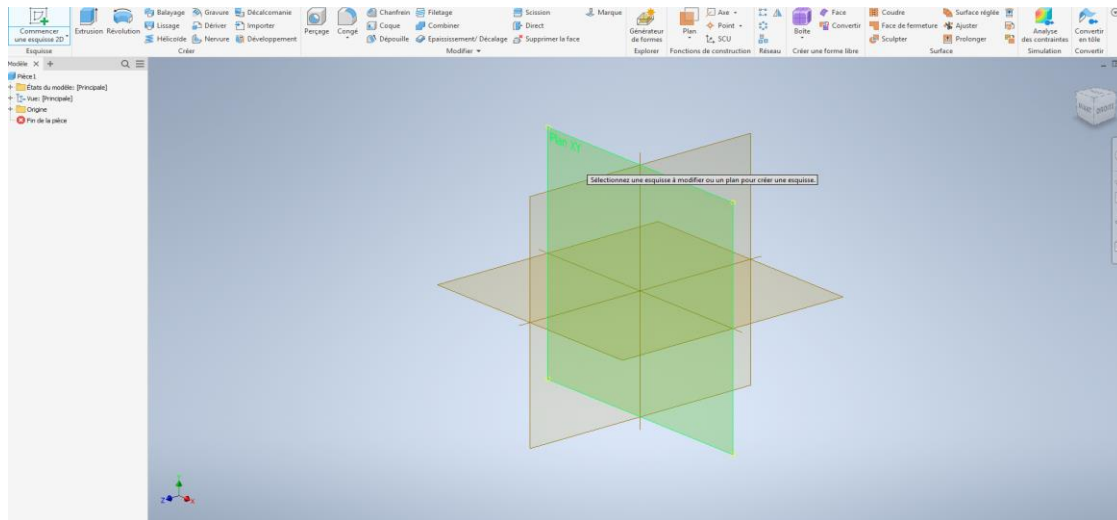

Open this licensing :

 AdskLicensing-installer	27/05/2024 15:03	Application	85 515 Ko
---	------------------	-------------	-----------

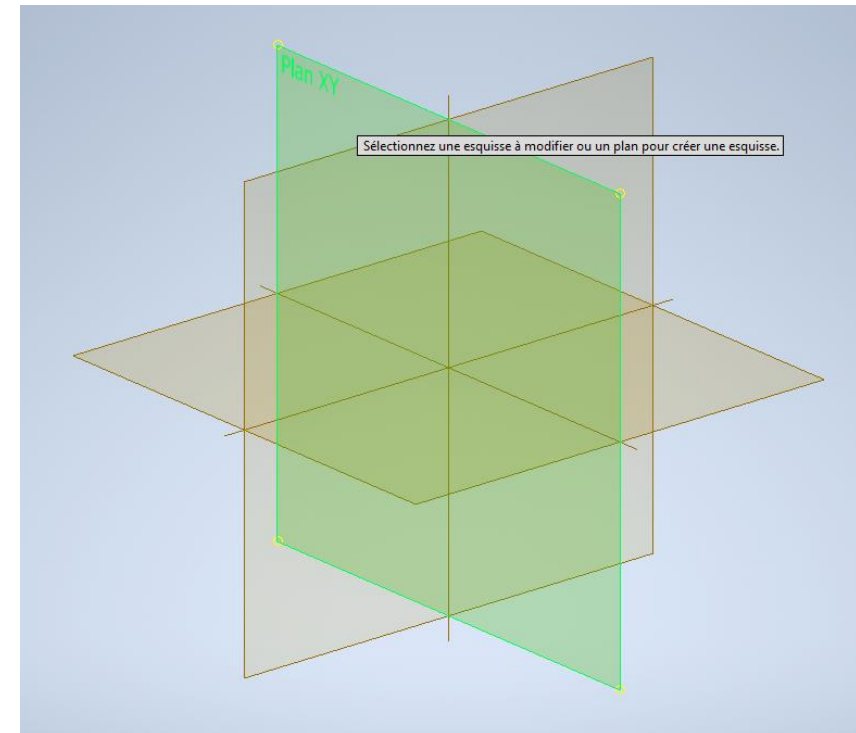

And after you can open « INVENTOR »

 Autodesk Inventor Professional 2023 - Fr...	14/11/2022 14:04	Raccourci	3 Ko
---	------------------	-----------	------

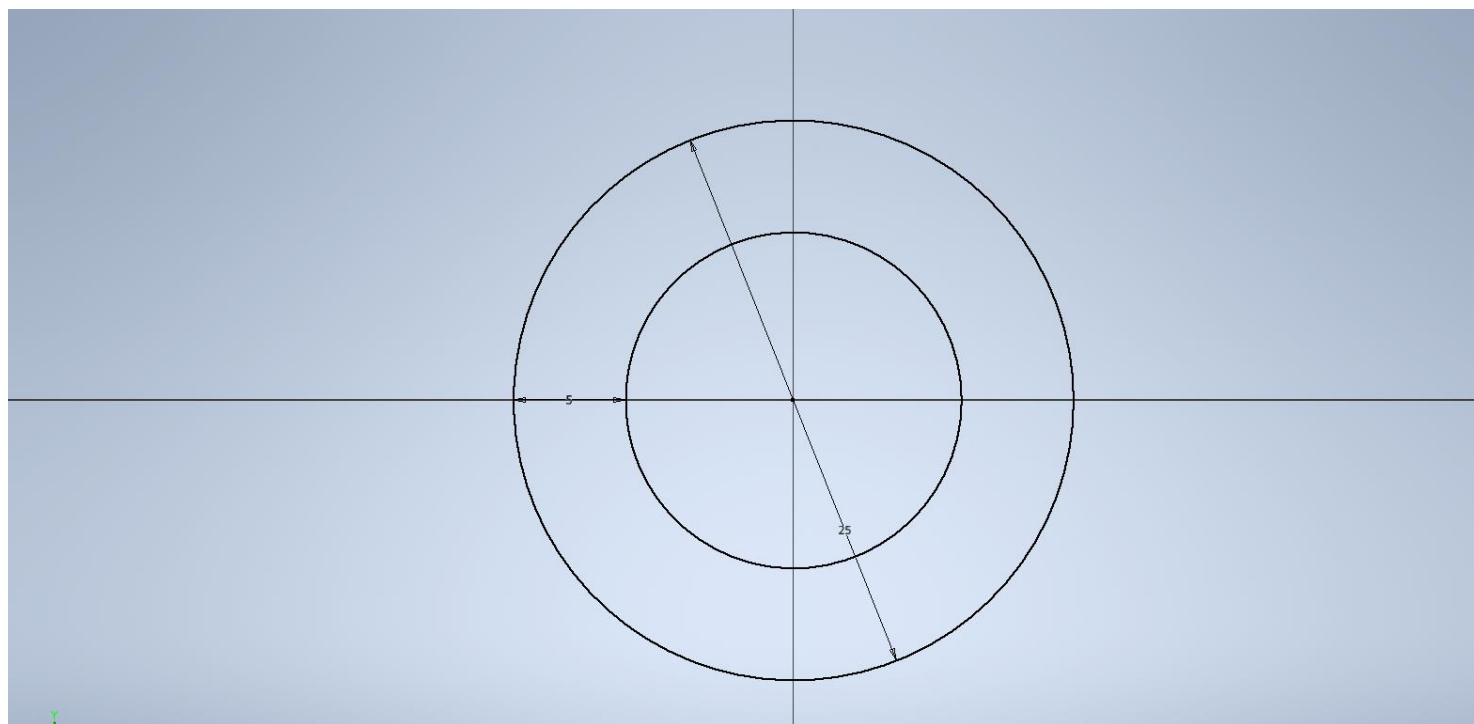

Click on « commencer une esquisse 2D »

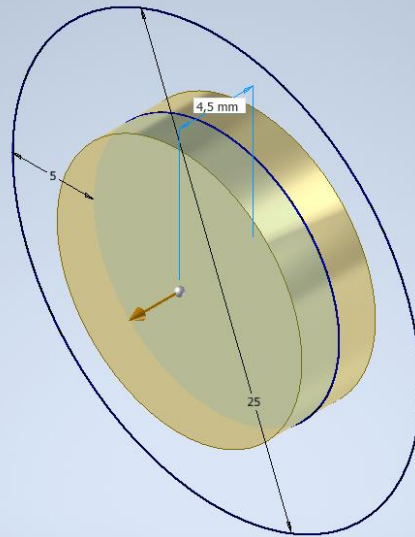

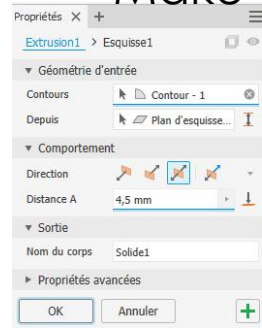

Select « plan XY »

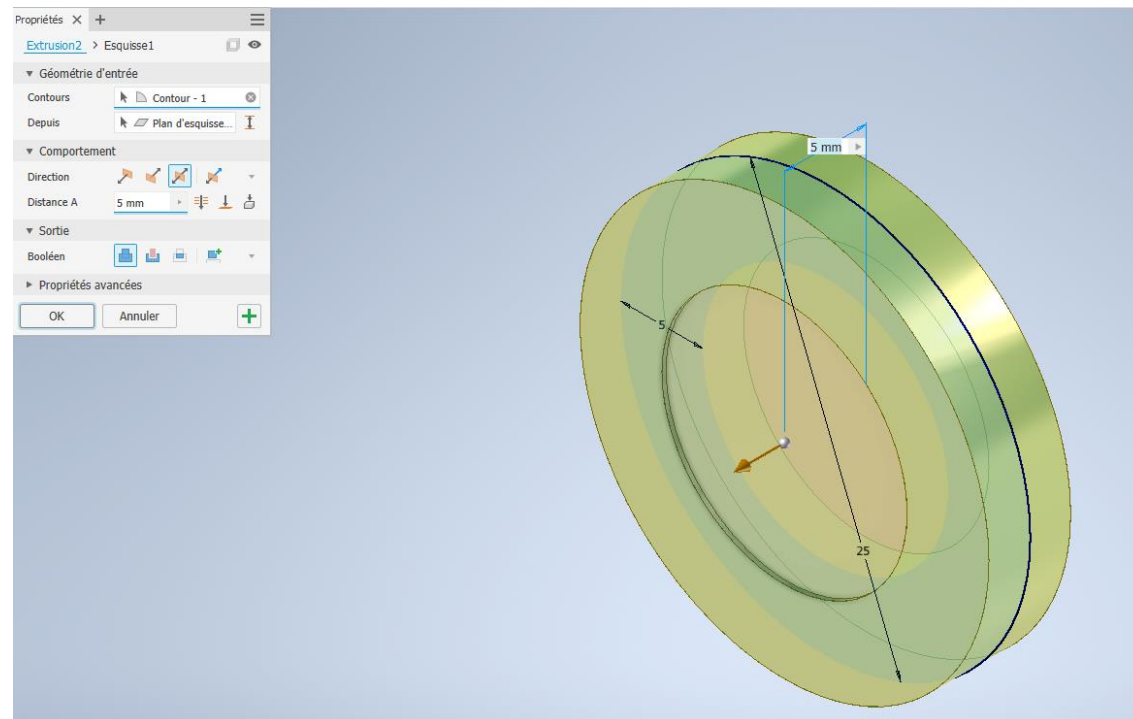

Make 2 circle
1: diameter 25
2: diameter 15

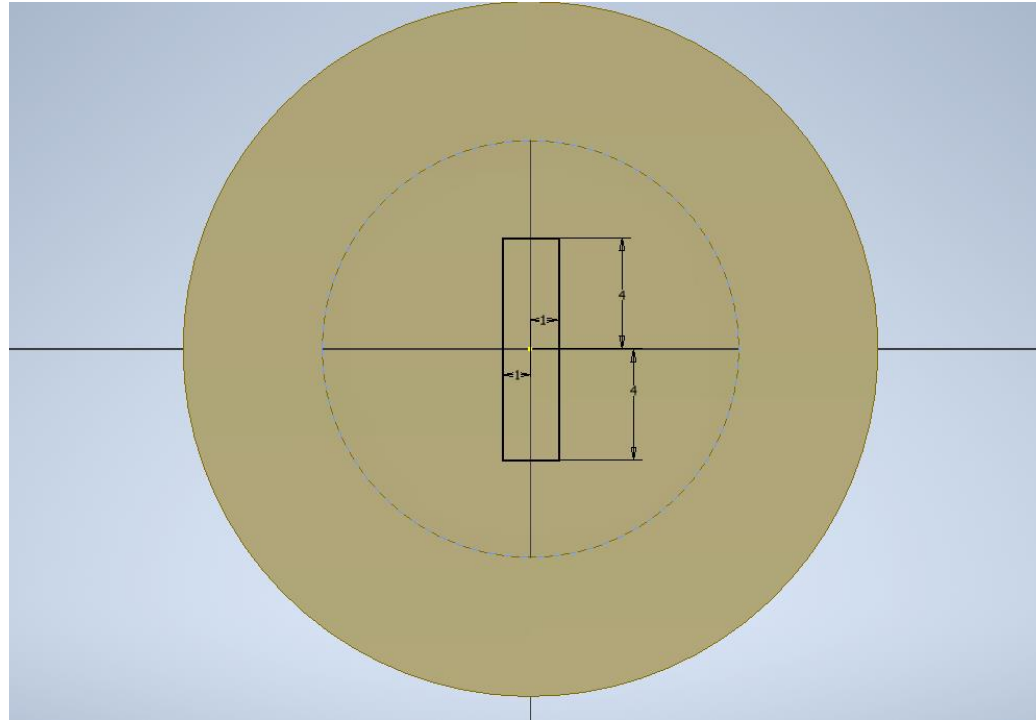

Make an 4,5mm extrusion on the circle diameter 15

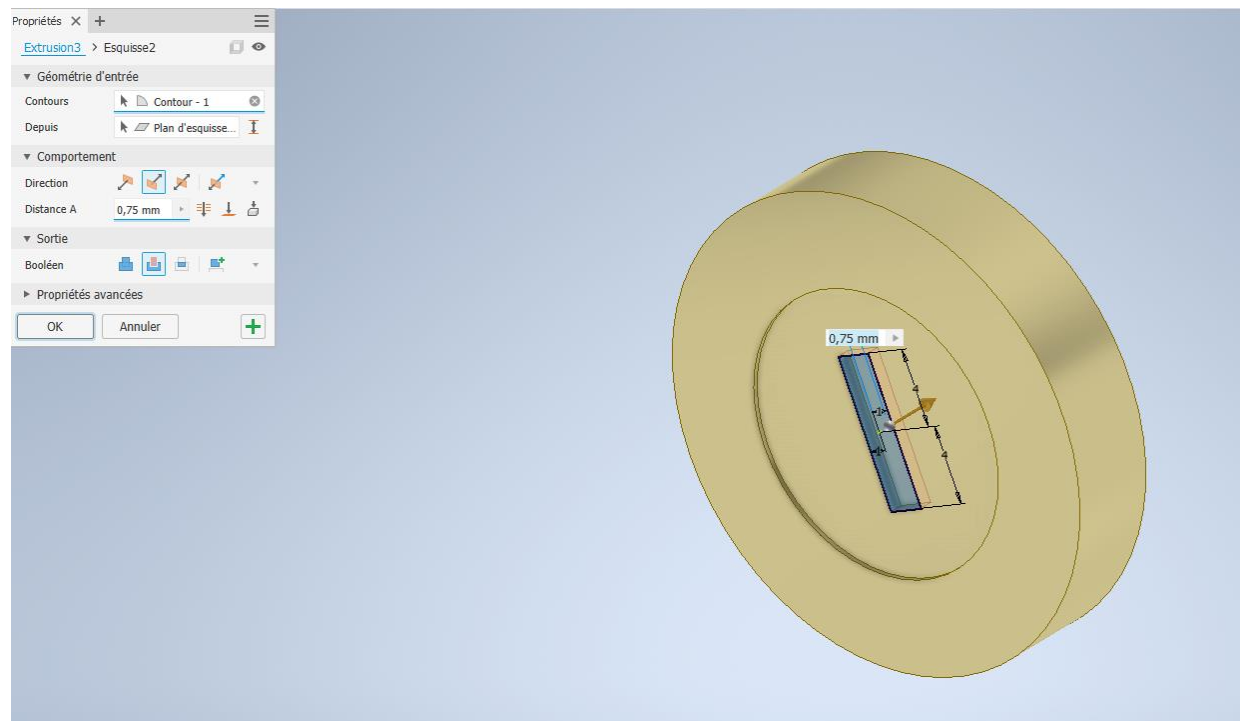

Make a 5mm extrusion on the second circle

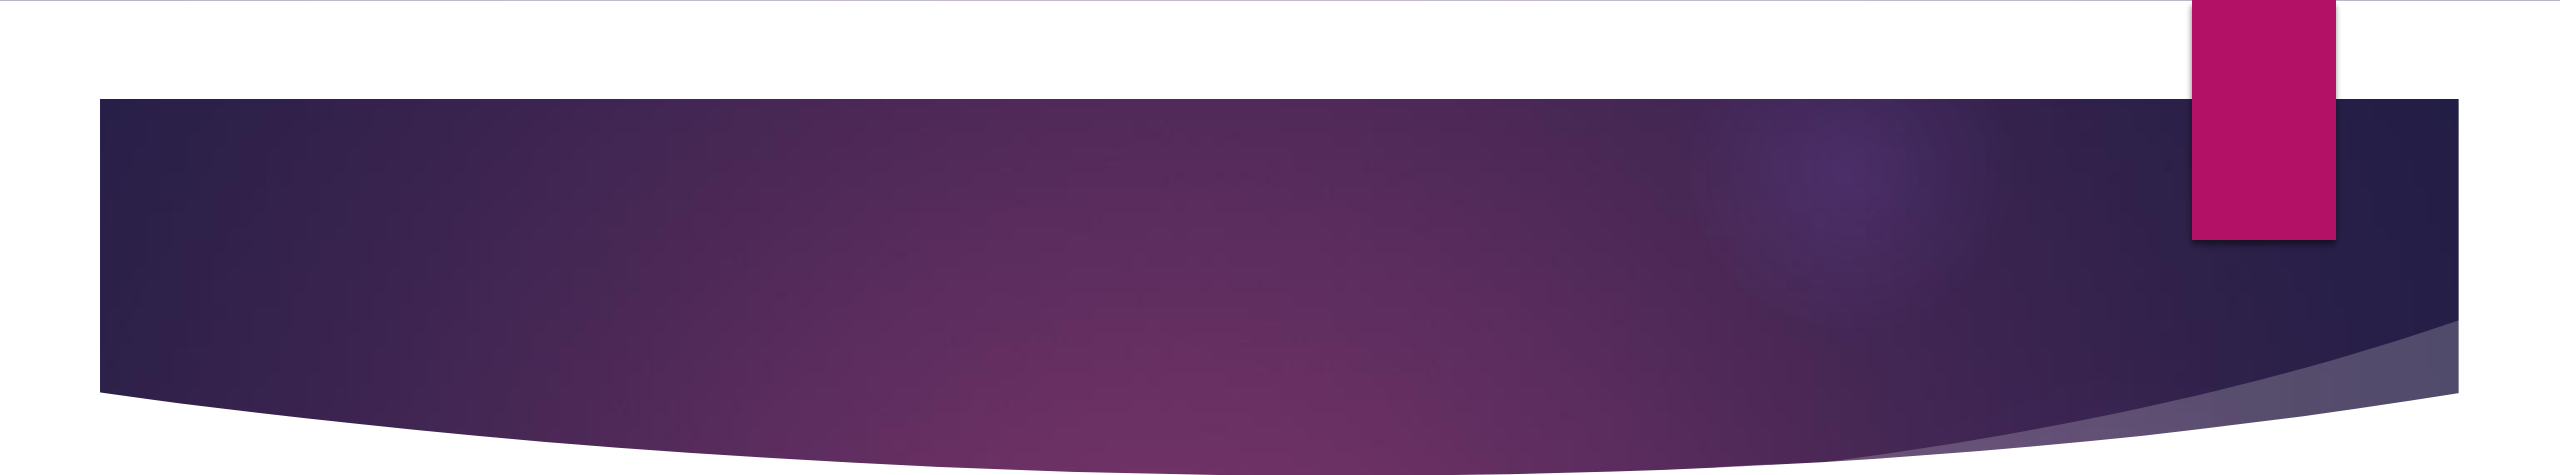

Make a rectangle of 8mm length
2 mm width
Center it relative to the axis

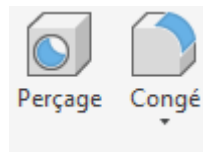

Make an 0,75 mm extrusion on the rectangle

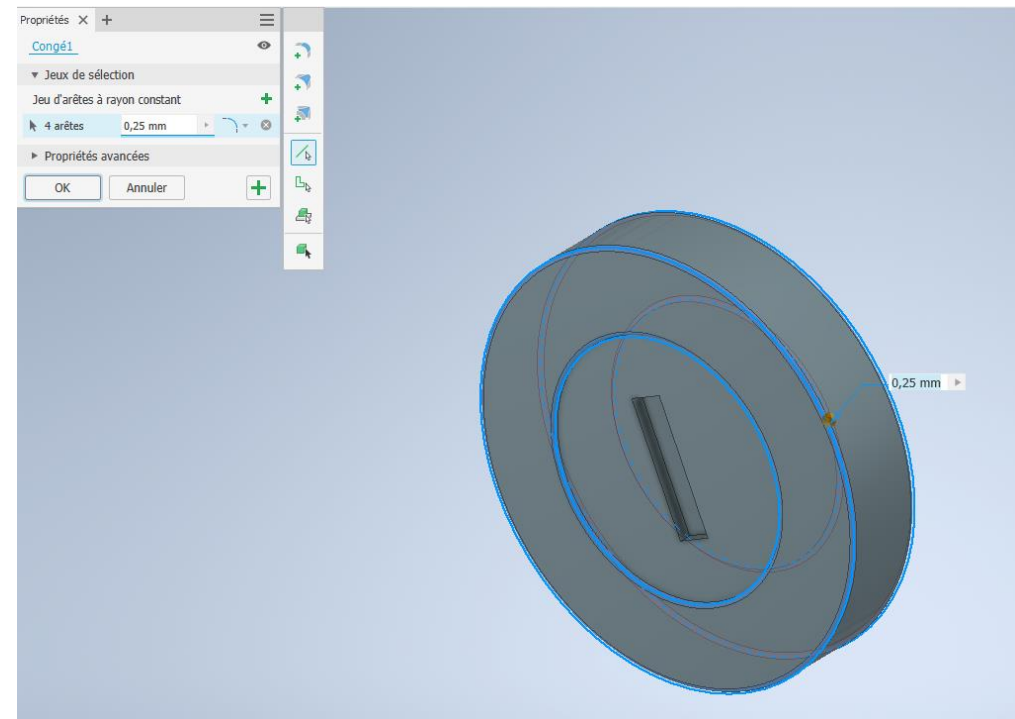

- 
- ▶ Make two previous steps on the other side

Select « Congé »

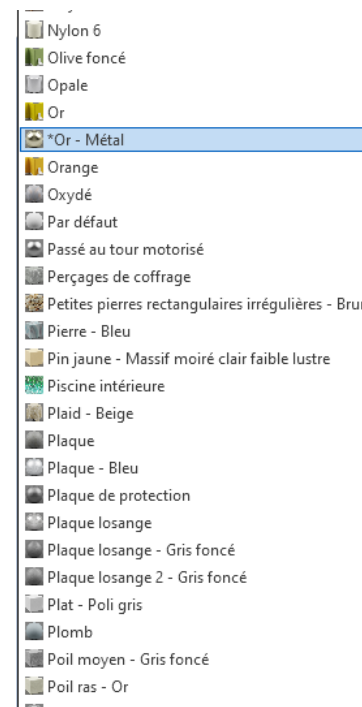

Select extremities of two extremities of circles
An make a 0,25 « congés »

Select colors here « plomb »

And select « or – métal »

THIS IS FINISH
