How to create a 3D object (Mario Kart coin)

- 1)Select new file 

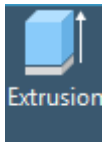

and select 

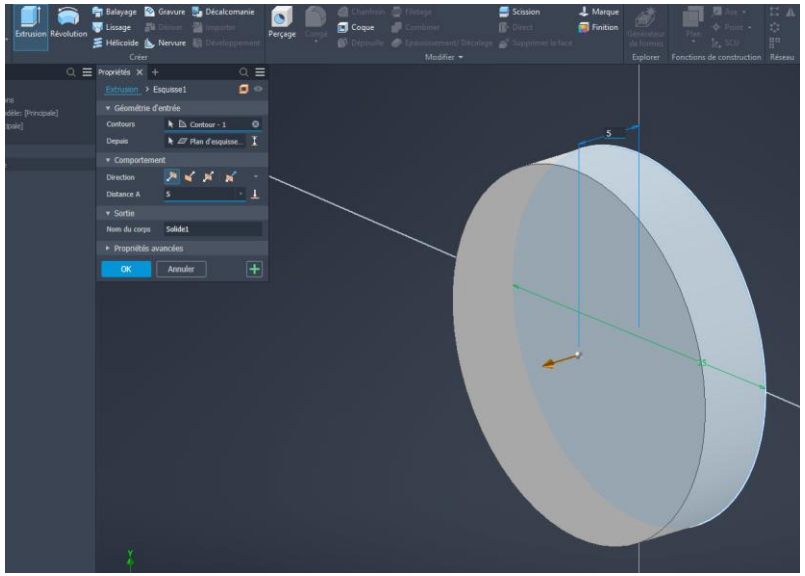

- 2)Start new sketch 

- 3)Take a plan XY 

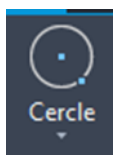

- 4)use the circle 

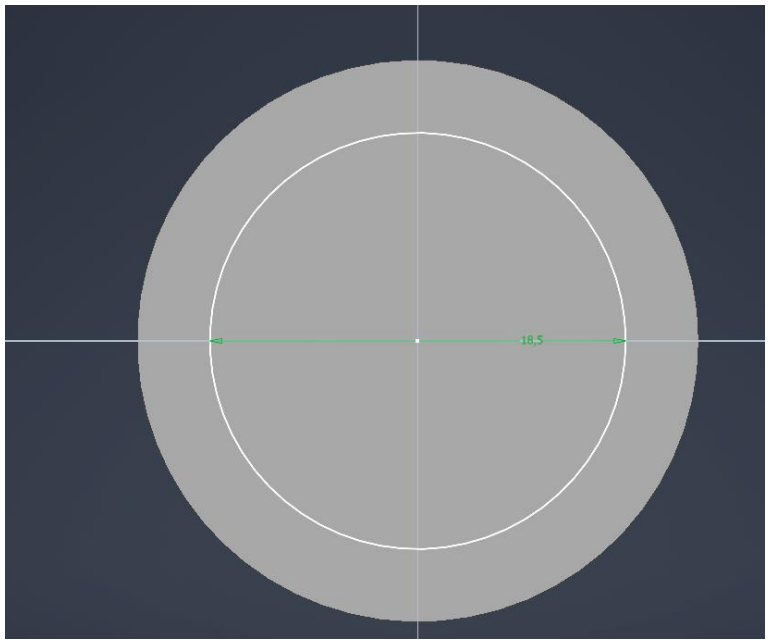

, do a circle with 25 mm diameter

- 5)After do an extrusion like the picture
- For extruded select 

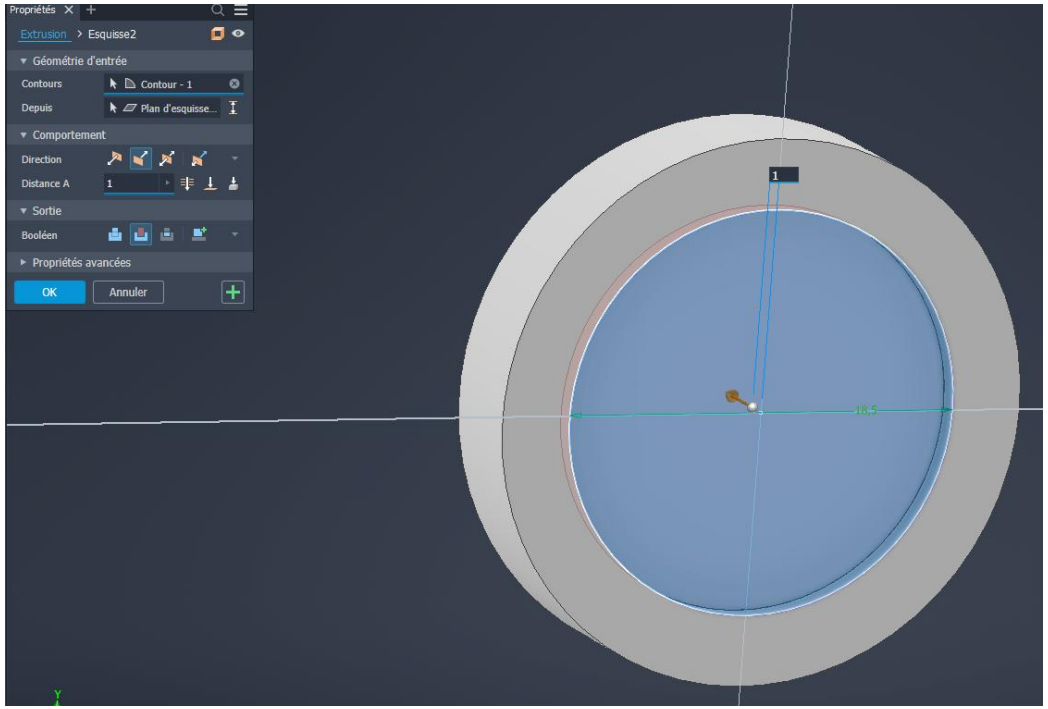

- 6) After that start a new sketch
- 7) select a face of the circle
- 8) select the object circle
- 9) do a circle with 18,5mm diameter

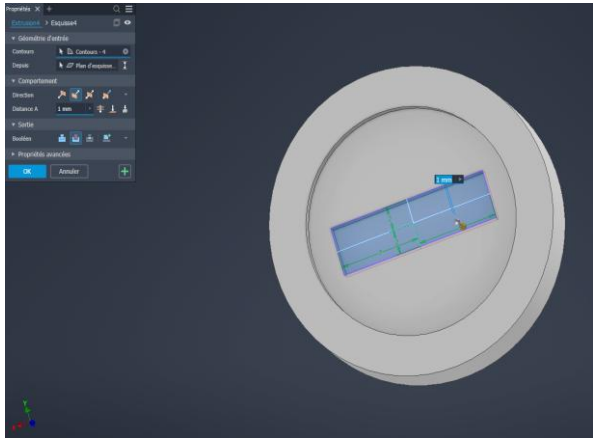

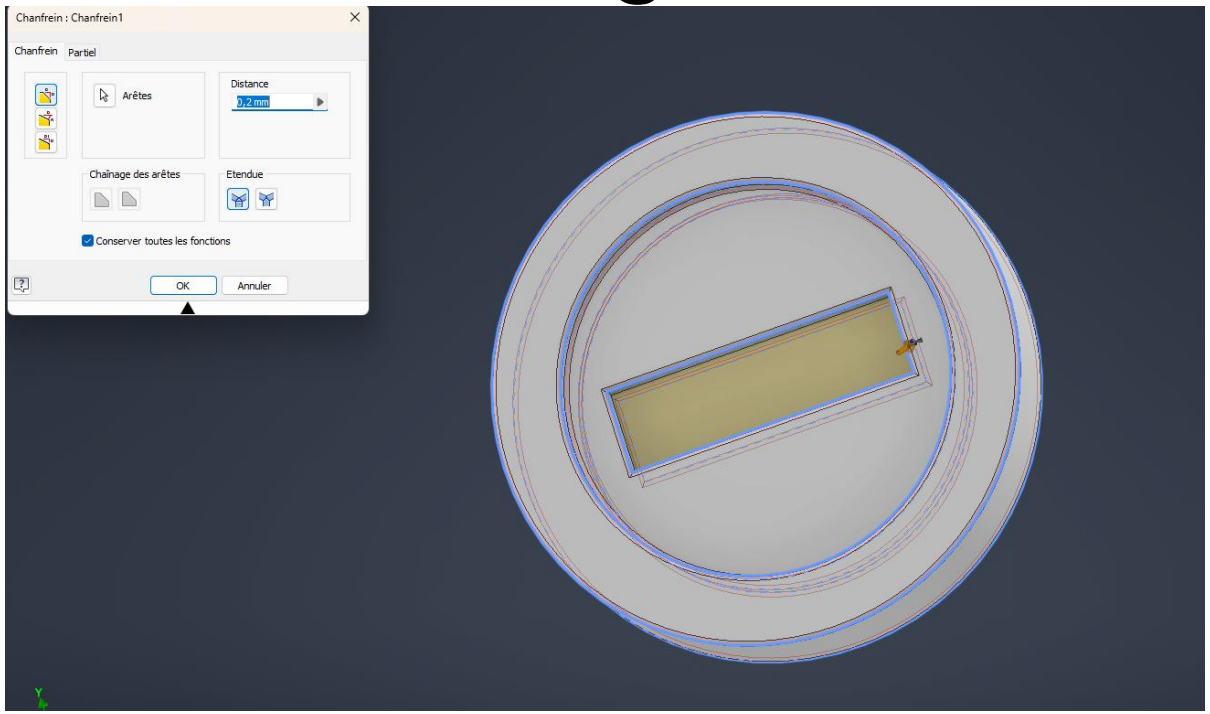

- 10)extrude the circle with 1mm and remove some of material 
- 11)Do that with the other side to

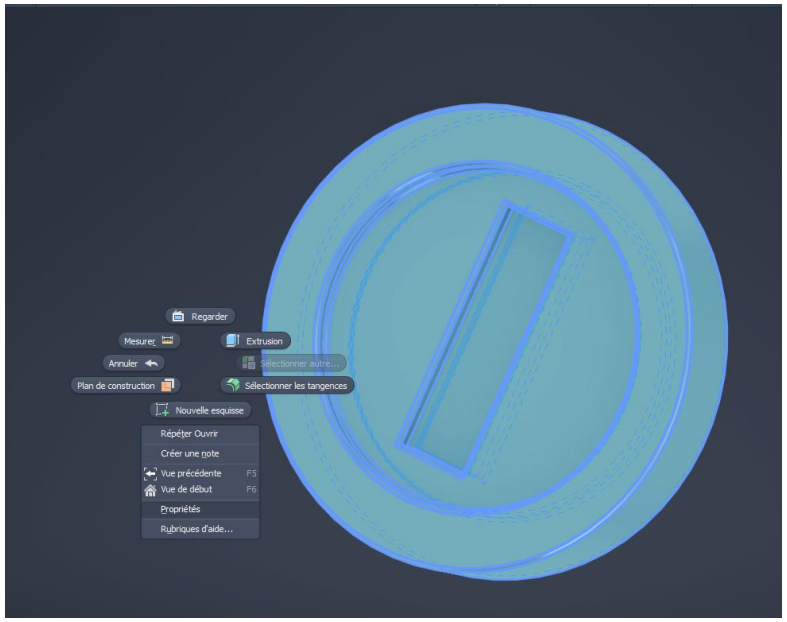

- 12) Do a sketch
- 13)Do a rectangle with 1mm per 14 mm
- 14)Extrude 1 mm
- 15)And do the same with the other side

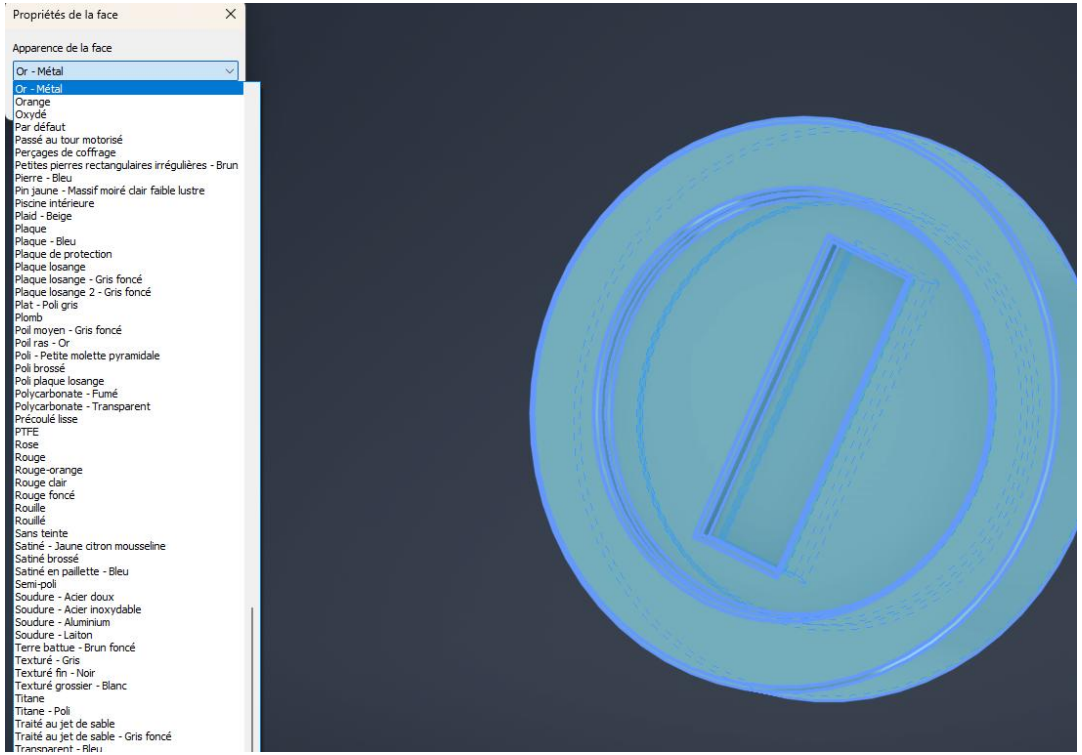

16)Do a chamfer with all edge with a distance that 0,2mm

- 17) To have an object more realistic choose a color .

- 18)Select property and select a color what you want

- Thanks for your understanding and good luck !!!!
